Hello Everyone,

Welcome to ADTA 5550.section 400: AI Deep Learning with Big Data – Summer 2024!

I look forward to getting to know and working with all of you this semester.

We start a new semester by discussing the syllabus posted in the Getting Started module. The syllabus touches in detail every aspect of this class throughout the semester.

I typically share the content of the course mid-week (usually Wednesdays), allowing you some time to review it before our Friday session, where we will go over the material (online over Zoom)

We will use the UNT email (...@my.unt.edu) and Canvas extensively in our communication. Therefore, please access your UNT email/Canvas daily so that you can follow the class activities closely. If you cannot access your UNT email account or Canvas, please let me know as soon as possible.

You can contact me anytime using my UNT email (Hamidreza.Moradi@unt.edu). I will check messages daily and try to respond as quickly as possible. Please let me know in advance if you intend to have an online meeting with me.

I wish all of you a great semester.

-Hamidreza Moradi, PhD

Students: Download the new Navigate app! Visit navigate.unt.edu for more information.
